

# Faculty Association Class Size

## Suffolk Community College

September 2011

The Faculty Association contract Article IV.E and Appendix H govern the process by which class size maximums may be altered. When these provisions were negotiated, the College agreed to continue the class size maximums in effect prior to 9/1/89. In addition, the College agreed that those maximums would continue until new class size maximums were established through the procedure outlined in Appendix H.

Prior to 9/1/89 it was agreed that "where required by student enrollment and in order to avoid, where possible, establishing additional class sections, such maximums may be increased without such prior consultation [with the FA] by 3 additional students per class, provided, however, that *the average class size of all sections of any catalogued course shall not exceed the aforesaid class maximums (1975-76 class size maximums plus 3).*"

Below is a list of SCC courses with their on-campus and online limits, not including the *plus 3* additional students. While space/equipment limitations on various campuses may dictate a need for fewer seats in certain courses than what's indicated below, the number listed below is the contractual class maximum limit. Courses listed with \* have class limits dictated by equipment limitations. Courses listed with \*\* have a hard limit that may not be exceeded. All fully online limits are hard limits and calculated as 2/3 the campus max as listed in this document. Blended/Hybrid limits are also hard limits calculated as 3/4 the campus max as listed in this document. Special Topics course maximums are determined when proposed.
