- Do you feel frustrated at times with students' seeming lack of self-regulation in terms of their academic planning?
- Are you concerned about ways to increase student enrollment, success, retention, and graduation rates?
- Curious about administrative plans regarding our roles in how we carry out proactive student advisement using Banner 9?
- Do you want to learn more about data-driven best practices that have worked at other community colleges in the nation?

Join the FA and Guild at RISE to the Occasion to learn more about the college's plans to improve proactive student advisement (academic, career, and social). Light breakfast, coffee & lunch will be served. RSVP here: bit.ly/3r0VIVf
